East Meets West

– Contemporary Urban Issues Revisited.

2nd International Conference

Of The Urban Development Issues Journal

Krakow (Poland), 5th October 2018

URBAN DEVELOPMENT ISSUES

Scientific Quarterly | ISSN 2544-624X (print) | 2544-6258 (online)

Following the success of the 1st conference in 2017 the second edition is launched. On the **5th October 2018** the city of Krakow will again host „East meets West” conference of urban studies enthusiasts. Our goal is to exchange different views on universal urban issues and to create a community around Urban Development Issues journal.

We invite you to submit abstracts of papers referring to the issues of urban space and urbanizing areas. Our conference and our journal are open to approach this subject from the point of view of different disciplines – from the humanities, through social and economic sciences, to technical and natural sciences.

MAIN CONFERENCE THEMES

- from shrinking to resilient cities
- gentrification
- housing studies
- mega-events and urban development
- post-political city
- revitalization
- socio-economic transitions of urbanized areas
- urban environmental issues
